- **Taxis** can, and should, be ordered in the booth inside the terminal for different fixed prices from approximately NOK 700+ to Oslo city center. Going outside to flag one from the queue always ends up much more expensive. Most people with a destination in Oslo will be far better off getting the Flytoget, Flybussen or local train to Oslo S, and get a taxi or local public transport from there.
- TI in front of train station. Pick up Oslo Map, transit map, Oslo Guide and Fjord Norway Travel Guide
- No tip necessary or round-up bill (about 5%)
